PROFESSIONAL SUMMARY

IT Security Specialist with experience in cybersecurity operations, SOC monitoring, and securing web applications and payment systems. Skilled in VAPT, SIEM (Wazuh), incident response, threat detection, and access control (RBAC, IAM). Proficient in payment security, fraud detection, log analysis, and risk assessment, with knowledge of MITRE ATT&CK, NIST, and ISO 27001 frameworks. Currently pursuing Certified Ethical Hacker (CEH).

PROFESSIONAL EXPERIENCE

IT Security Specialist

Serah Travel & Tours LLC Pvt .Ltd (APEIRO TRIP), Pathanamthitta, Kerala |Dec 2025 – Present |*on site*

- Manage access control, RBAC, and secure email configurations
- Manage backend administration and security monitoring for AI-powered B2C travel portals, and B2B airline booking platforms. Monitor system performance, frontend/backend operations, and troubleshoot booking, delivery, and transaction issues.
- Oversee payment gateway integrations and transaction monitoring, ensuring secure and reliable financial processing. Handle client communications, system alerts, and operational coordination, supporting critical business and IT processes.
- Travel services company specializing in flight bookings and travel management. Operates ApeiroTrip, an AI-powered B2C travel portal.

➢ **Achievements/Tasks**

- Conducted regular risk assessments for proactive threat mitigation within the organization"s IT infrastructure.

Cybersecurity Analyst Intern - SOC Operations - CyArt | Aug 2025-Nov 2025 |4 months | Remote

- Monitored network security using SIEM, IDS/IPS, and firewall logs for threat detection
- Performed incident response, alert triage, log correlation, and IOC analysis
- Conducted phishing and malware analysis using MITRE ATT&CK framework
- Leveraged threat intelligence and OSINT for security investigations
- Supported security audits, compliance, and system hardening

Cybersecurity Intern - Kerala Police Academy, Ramavarmapuram | January 2024| *on site*

- Performed VAPT and penetration testing on Windows systems using Kali Linux (identified 15+ vulnerabilities)
- Conducted vulnerability assessments using Nmap, Burp Suite, Metasploit, and OWASP ZAP
- Analyzed network traffic with Wireshark and delivered remediation-focused security reports

---

EDUCATION

Bachelor of Science in Digital and Cyber Forensic Science
Sree Saraswathi Thyagaraja College, Bharathiar University | Pollachi, Tamil Nadu | 2022–2025
Percentage: 84%

Relevant Coursework: SOC Operations, Vulnerability Assessment and Penetration Testing (VAPT), Ethical Hacking, Security Audits, Incident Response, Digital Forensics, Network Security, Malware Analysis

---

TECHNICAL SKILLS

- **Security Operations:** SIEM Monitoring (Wazuh), Alert Triage, Log Analysis, Threat Intelligence, Phishing & Malware Analysis, IOC Detection, Security Audits
- **IT Operations & Application Security:** Backend Administration and system monitoring, Web Application Monitoring Payment Gateway integration, Admin Portal Management, Transaction And Booking Error Analysis, Incident Response and Troubleshooting**.**
- **Security Tools:** Wireshark, Burp Suite, OWASP ZAP, Nmap, Metasploit, Autopsy, OpenVAS, Nessus
- **Networking &OS:** TCP/IP, IDS/IPS, Firewalls, RBAC IAM, TLS/SSL Encryption, Kali Linux, Ubuntu, Windows 10/11, Parrot
- **Digital Forensics**: OSINT, File System Analysis, Evidence Collection, Dark Web Monitoring, MobileEdit
- **Scripting:** Basic Python, Bash Scripting, PowerShell (Learning)
- **Languages:** English (Fluent), Malayalam (Native), Tamil (Basic), Hindi (Basic)
- **Soft Skill**: Problem Solving , Self Learning , Adaptability

---

KEY PROJECTS

- **Secure IoT Bridge using Docker with TLS Encryption** | 2025
  Developed a Docker-containerized IoT bridge implementing TLS 1.3 encryption to ensure secure device-to-cloud communication and prevent man-in-the-middle attacks.
- **Secure REST API Development with Node.js** | 2024
  Built a production-ready REST API with JWT authentication, input validation, rate limiting, and comprehensive error handling following OWASP API security best practices.
- **Penetration Testing Assessment on Windows 7** | 2024
  Performed comprehensive penetration testing identifying critical vulnerabilities, testing security controls, and delivered detailed remediation strategies with risk prioritization.

CERTIFICATIONS

- **Blue Team Junior Analyst** – Security Blue Team (2025)
- **Cybersecurity Foundation Certificate & Security Operations Fundamentals** – Palo Alto Networks
- **Ethical Hacking Essentials , Digital Forensic Essentials , Network Defense Essentials** – EC-Council
- **Introduction to Cybersecurity** – Cisco Networking Academy
- **Privacy & Security in Online Social Media** – NPTEL (2023)
- **Systems and Usable Security** – NPTEL (2023)
- **Tata Cybersecurity Analyst Job Simulation** & **Mastercard Cybersecurity Virtual Experience** – Forage
- **Certified Ethical Hacker (CEH)** – In Progress
